CAREER OBJECTIVE

Aspiring Python Developer with strong knowledge of Python, FastAPI, SQL, MySQL, and web development fundamentals. Passionate about building scalable backend applications, REST APIs, and data-driven solutions. Seeking an opportunity to contribute to software development projects while continuously enhancing technical and problem-solving skills.

TECHNICAL SKILLS

Programming Languages: Python, SQL, JavaScript

Backend Development: FastAPI, Flask, REST APIs, JWT Authentication

Frontend Technologies: HTML, CSS, React.js

Database Technologies: MySQL, Firebase

Tools & Platforms: Git, GitHub, VS Code, Postman

Core Concepts: Object-Oriented Programming (OOP), Data Structures & Algorithms, Database Design, Authentication & Authorization, API Development

PROJECTS

Insurance Policy & Claims Management System

Technologies: *Python, Flask, MySQL, HTML, CSS, JavaScript, REST APIs*

- Developed a role-based insurance management system supporting Admin, Customer, Agent, and Claims Officer workflows.
- Implemented policy management, policy purchase, document upload, claim submission, review, approval/rejection, and claim tracking modules.
- Built REST APIs and integrated MySQL for managing customer, policy, document, and claim data.
- Designed dashboards for centralized monitoring of policies, claims, and claim statuses, improving workflow visibility and reducing manual processing.

Smart Cart – E-Commerce Web Application

Technologies: *Python, Flask, MySQL, HTML, CSS, JavaScript, Bootstrap*

- Implemented user registration, login, session-based authentication, and role-based access control.
- Built product management, shopping cart, wishlist, and order processing modules with complete CRUD functionality.
- Designed and managed relational database models using MySQL for efficient data storage and retrieval.
- Developed an admin dashboard to manage products, categories, orders, and users.
- Implemented form validation, exception handling, and optimized database queries to improve application performance.

AI Resume Analyzer

Technologies: *Python, Flask/FastAPI, MySQL*

- Developed a system that analyzes resumes against job descriptions.
- Extracted candidate skills and generated ATS-style matching scores.
- Identified missing skills and suggested improvements.
- Stored analysis reports for future reference.

EDUCATION

Bachelor of Technology (Electronics and Communication Engineering)

MLR Institute of Technology, Hyderabad 2021 – 2025

ACHIEVEMENTS

- Secured 1st Place in a National Robotics Competition using a Python-based solution.
- Department Coordinator – Led and coordinated a student club comprising 85+ members, organizing events and fostering team collaboration.
- Completed Python Full Stack Development training with hands-on project experience.

CERTIFICATIONS

- Plant IT (ProLeiT) MES Training
- Python Programming Fundamentals — Infosys Springboard
- Python, MySql, Flask – Codegnan IT Solutions
